

Vegetal Mix Fiber CSM (Chopped Strand Mats)

VEGGIE-FIBERS co.,Ltd.

Our R&D Team developed new item to compete with fibre-glass

- 1.- to waterproof Flat roofs
to cover walls
etc...
- 2.- for vacuum infusion

Our products are different BLENDS of at least each time 3 different vegetal fibres.

Suitable for different applications.

You tell us the final object you wish to produce, and our technicians will “taylor blend” a unique formula for you !!!

Using the same resins and the same methods you are familiar with when you use fibre-glass
such as acrylic / Polyester / Epoxy / PU ...

One may also use all the Additives
such as wax / UV protection / Fire retardant / Antibacterial / Colour
etc...

One will use it exactly the same way as usual , but with following advantages:

- 1.- lighter
- 2.- non-harmful - it is VEGGIES !!! no need gloves nor gas mask
- 3.- stronger
- 4.- less expensive
- 5.- fantastic carbon footprint
- 6.- recyclable

To build we do not cut TREES, we cut GRASS !!!
